HISTORIC INFO

United Methodist Church was established in Libertyville in 1836. The first building for the church was built at Milwaukee Avenue and School Street in 1881. In 1913, the congregation built a new church on Brainerd. This church building was expanded several times before being demolished for a new sanctuary in 1969. The 1-story educational building dates from 1957.

SIGNIFICANCE

Impressive turn-of-the-century Queen Anne residence with distinctive southeast corner tower. House was rehabilitated in 2011--although many materials are not historic, the replacement materials are historically appropriate.

HISTORIC FEATURES

Pyramidal hipped main roof; front and side gable-roof bays with cutaway corners; 3-story southeast corner bay with steeply pitched, flared hipped roof

ALTERATIONS

House converted to multi-family some time between 1933 and 1948, and converted back to single family in 2011. Recent alterations are historically appropriate, and include the full front porch (rebuilt in similar manner to original); Hardie-board siding; front door with sidelights; 1-story rear addition; windows are replacement, but historically appropriate type and configuration.

HISTORIC FEATURES

Based on exterior features and Sanborn maps, the house appears to have originally been a late 19th century Queen Anne house that was converted to multi-family use and extensively altered around 1925. The steep hipped roof at the center of the massing and the 1.5-story east side bay with 1st story cutaway corners is original; an original square, canted bay at the southeast corner of the facade was obscured by a 2-story addition from 1925; the two-story west wing, wrap around porch, and double entries also date from 1925.

ALTERATIONS

More recent alterations include replacement siding; 1-story rear addition; replacement front doors; replacement front steps and railing
